EDUCATION

University of San Andrés (UMSA) — La Paz, Bolivia
Computer Science — *In Progress*

Solidity Instructor – Decentralized Transactions Bootcamp — March 2025 – August 2025
University of San Andrés (UMSA) — La Paz, Bolivia
- Taught an intensive bootcamp on smart contract development with Solidity
- Integrated frontend and backend for decentralized transactions
- Received teaching certification from UMSA

PROFESSIONAL EXPERIENCE

Engineering Director – SecureSettles (Remote) — November 2024 – Present
- Technical leadership in Web3 products using Solidity and React Native
- Coordination of distributed engineering teams
- Implementation of smart contract architectures

Engineering Director – R3foresta (Remote) — June 2025 – Present
- Technical direction for blockchain-based carbon credit project
- Project winner of BulldathonETH Bolivia – 1st national place (August 2025)
- ReFi / Public Goods track

Project Director – AR (Freelance) — August 2021 – November 2024
- Direction and supervision of digital projects

ACHIEVEMENTS & AWARDS

1st Place – Cochablock — September 2025
Project: AINI Pay – AI-powered transaction agent

1st Place – Bulldathon Bolivia — August 2025
Project: R3foresta – Regenerative Finance (ReFi) / Public Goods track

4th Place – Yasta (Banco Unión, Bolivia) — 2025
Project: Mr Panda Kai – Gamification solutions

TECHNICAL SKILLS

- **Languages:** HTML, CSS, JavaScript, Solidity, PHP, Python, Rust, Java, COBOL, Visual Basic
- **Frameworks & Libraries:** React, Vue, Tailwind, Bootstrap
- **Databases:** MySQL, MariaDB
- **Security:** Pentesting, Ethical Hacking
- **Blockchain:** Smart Contracts, Web3, DeFi, ReFi

RELEVANT PROJECTS

R3foresta – Blockchain platform for carbon credits
Role: Engineering Director + Blockchain Developer
